Ultra Marathon

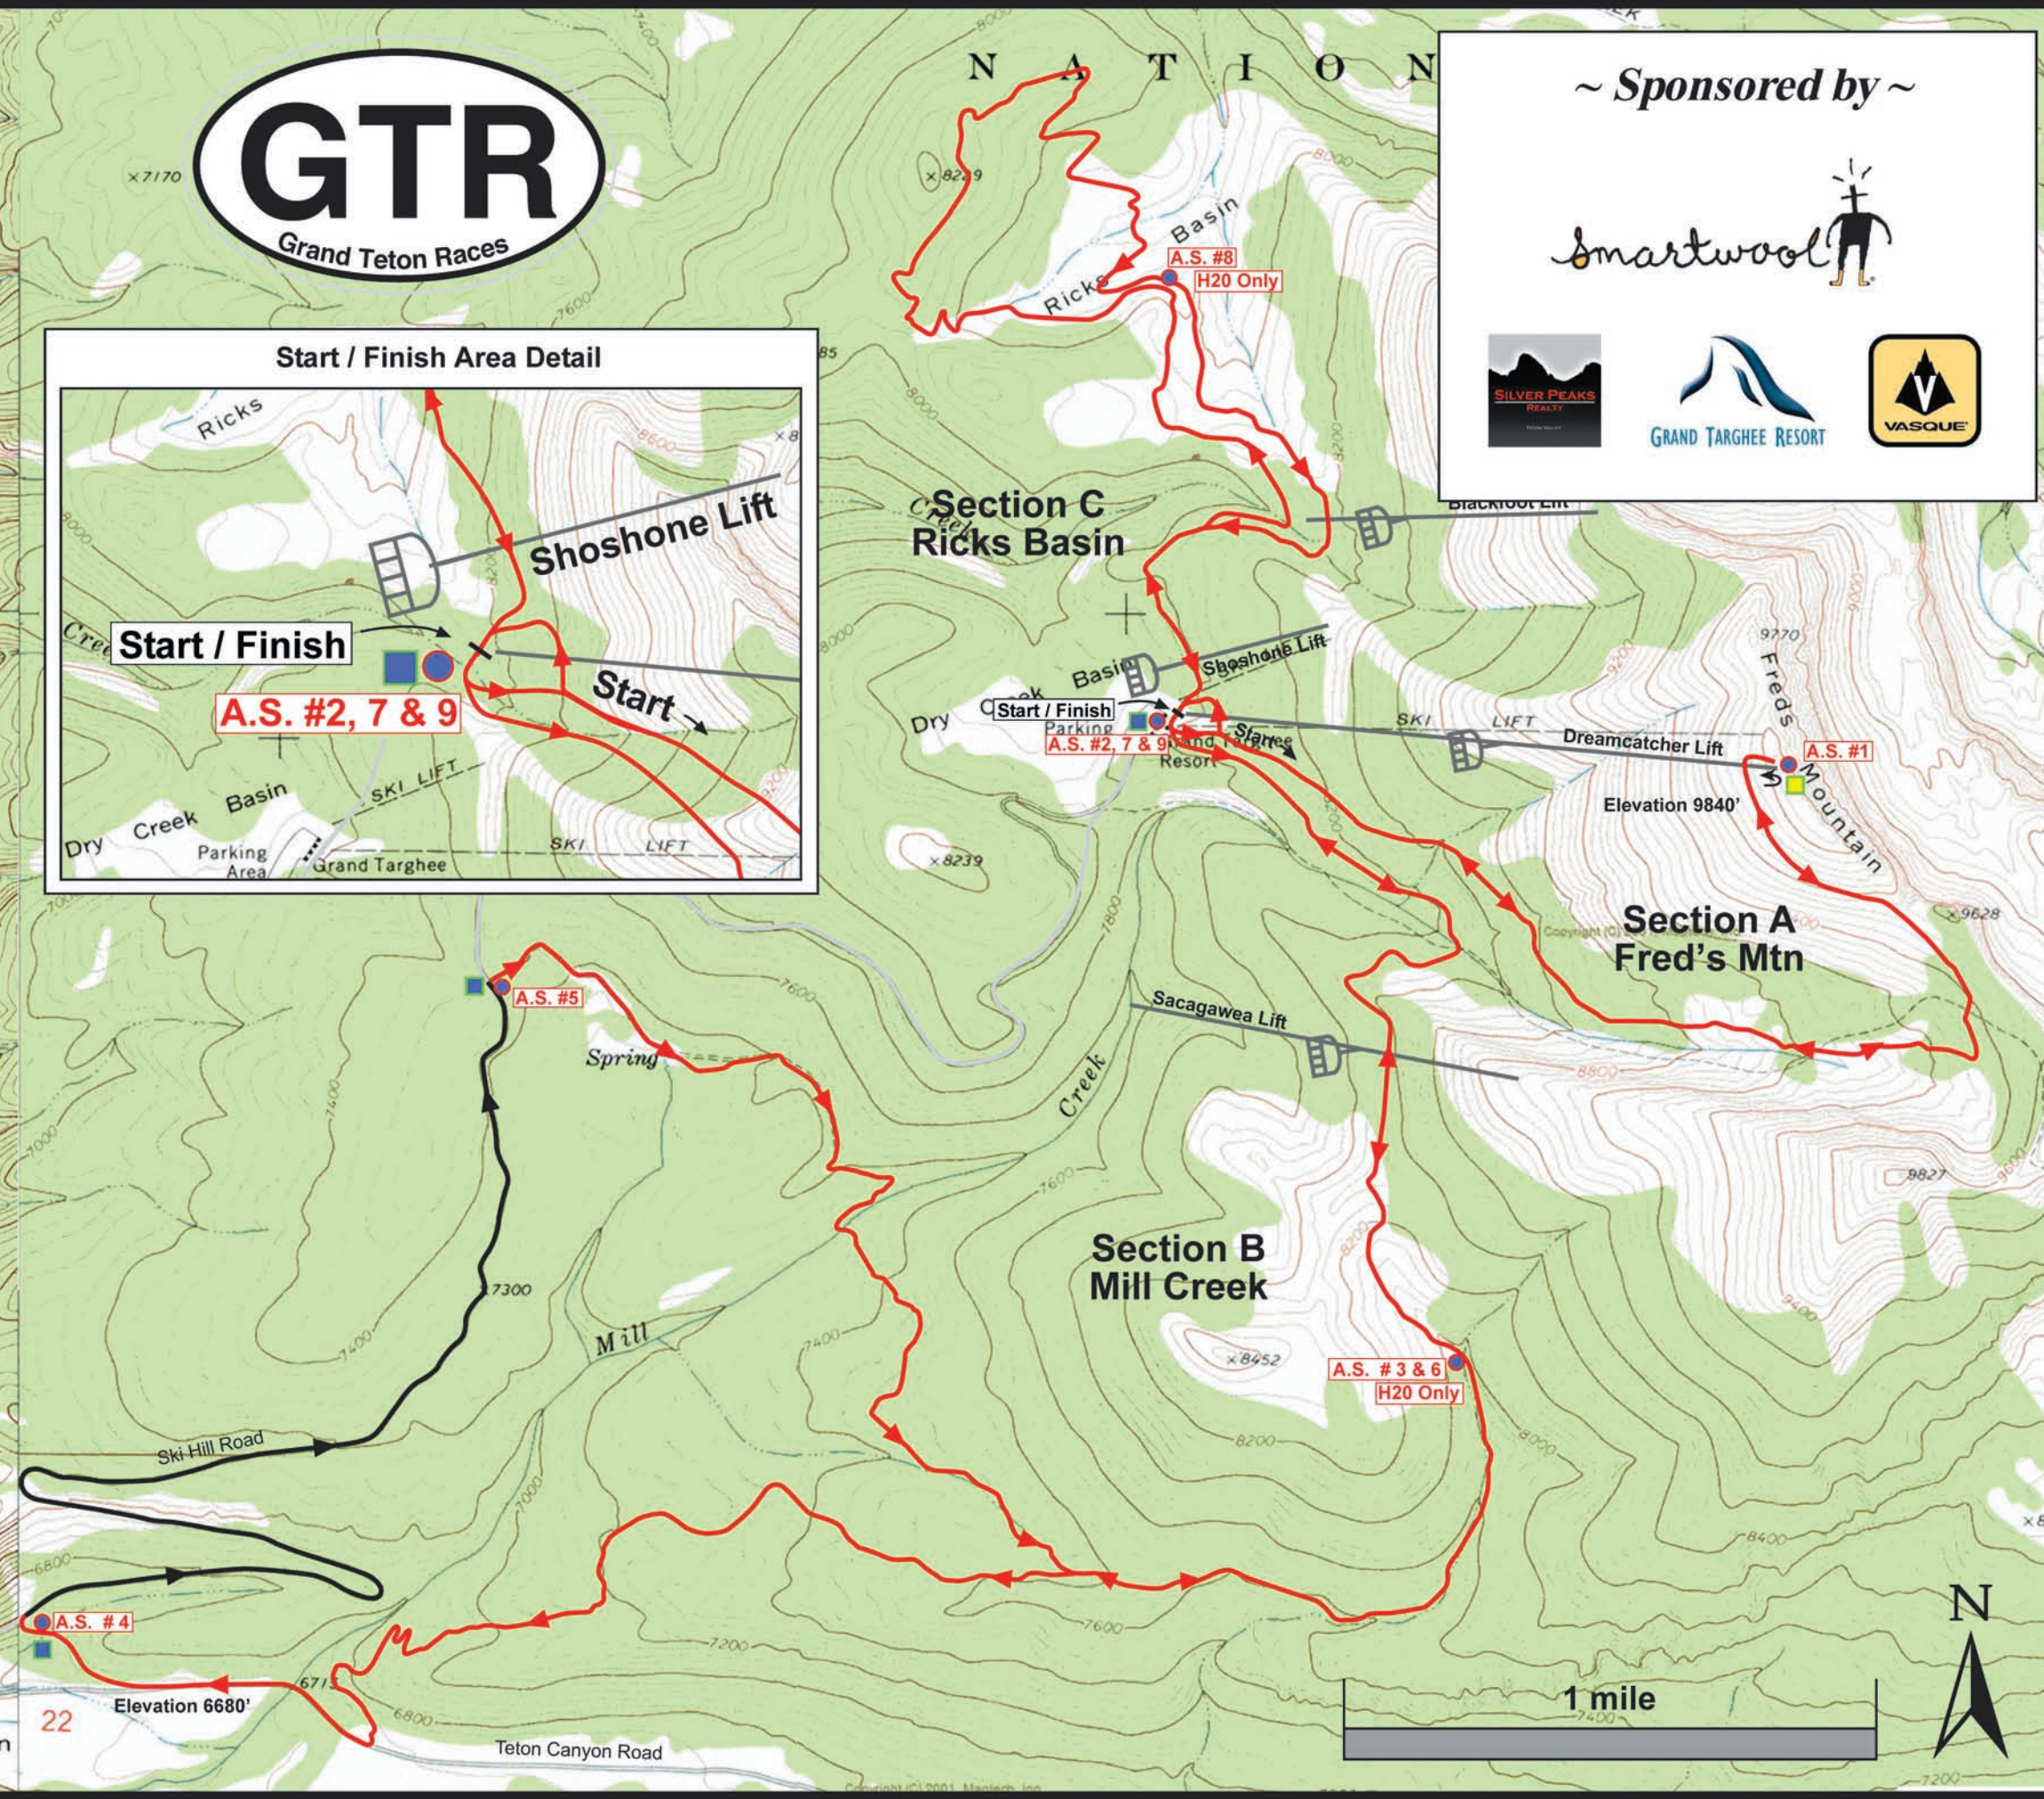

50 Miles - 100 Miles

Course Description

The course starts at the Grand Targhee Resort base area, just below the Dreamcatcher lift, and follows the dirt road to the top of Fred's Mtn. It reverses course at Aid Station #1 and heads back down the road to the base area, crossing under the Dreamcatcher lift before reaching the Base Aid Station.

Exiting the Base area, the course heads south, following the dirt road uphill towards the Sacagawea lift, then into Teton Canyon using the Mill Creek Trail. After joining Teton Canyon Rd (a gravel road), the course turns right and follows this road until it dead-ends at Ski Hill Rd. It turns right and follows Ski Hill Rd for 3.3 miles then heads back into the forest at a large turnout on the right, which quickly becomes a 4WD trail. This trail rejoins the Mill Creek Trail after 2.2 miles, where it bends to the left and heads back to the base of Grand Targhee.

After passing through the Start/Finish area at the Base of the Dreamcatcher lift, the route continues north to Rick's Basin, mostly on single track trails, and follows Rick's Basin in a clockwise pattern. Upon exiting Rick's Basin, the course goes under the Blackfoot lift and heads back to the Base Area/Finish Line, completing one 25 mile lap.

Aid Stations - Ultras

#1 Aid Station	2.8 miles
#2 Aid Station	5.6 miles
#3 Aid Station	7.5 miles
#4 Aid Station	11.3 miles
#5 Aid Station	14.6 miles
